EDUCATION

National Institute of Technology

Bachelor of technology in Electrical and Electronics Engineering — CGPA: 7.48

Surathkal, Karnataka

Dec. 2021 – May 2025

Dr. Ambedkar College

Higher Secondary Higher Secondary – Percentage: 96.67

Nagpur, Maharashtra

June 2019 - May 2021

School of Scholars

Central Board of Secondary Education – Percentage: 93.8

Amravati, Maharashtra

June 2015 - May 2019

PROJECTS

MyPortfolio | SCSS, HTML, React.js, Express.js

March 2023 – March 2023

- A web application which shows my skills and project from starting
- Its simple Project made by HTML, Sassy CSS, and React

Github - <https://github.com/HimanshuGD/MyPortfolio>

Face-Detector | React, Node.js, Express.js PostgreSQL, pgAdmin, Postman API

March 2023 – May 2023

- With Udemy Course, Developed a full-stack web application using with React as the frontend
- Uses Clarifai face detection API which is the interface that allows clients and servers to “talk” to each other
- With the SignIn and Register features, user credentials are then later saved in a PostgreSQL database
- Implemented functionality in the application to detect and highlight faces in images using the Clarifai Face Detection API.

Github - <https://github.com/HimanshuGD/Face-Detector>

Meals To Go | React-Native, Firebase Authentication, Android Studio, Google Cloud Platform

June 2023 – Present

- With Udemy Course, Developed a full-stack mobile and web application using React-native
- With the SignIn and Register features, firebase authentication is used
- Expo-camera for putting profile and expo-map to locate restaurants are used to make app more real-based
- This application runs on web as well as on mobile(both on IOS and Android)

Github - <https://github.com/HimanshuGD/MealsToGo>

Spotify-clone | HTML, CSS, Javascript

February 2023 – February 2023

- A basic selfmade project where I tried Web Development for first time and explore some features of javascript
- There are few albums which are made by html, javascript as you enter homepage
- You can play or pause the music, can navigate at any time

Github - <https://github.com/HimanshuGD/Spotify-clone>
